FATAL ACCIDENTS. Railroad Brakeman Instantly Killed-

Frightful Accident to Three Little PITTSEURG, October 22.-An accident occurred on the Pittsburg & Lake Erie railroad about 11 last night near Bridgwater, in which a freight train was badly wrecked, twelve cars being thrown from the track. G. C. Lemmon, brakeman, was instantly killed. George Fulton,

fireman, and H. L. Knorr, the engineer, were painfully but not seriously injured.

Three little girls named Stella, Lillie and Mary Dunn, daughters of John Dunn, this morning obtained possession of a railway signal torpedo, which they attempted to open by pounding it with a boulder. An explosion followed which fatally injured Stella, aged 3 years. A fragment struck Lillie in the face, cutting out one eye, and it is thought destroying the sight of the other. Mary, the oldest, aged seven, who handled the torpedo, escaped with no more serious injury than badly lacerated hands. painfully but not seriously injured.

GLADSTONE. Interesting Talk with the Liberal Ex-Premier-His Resumption of Office, and Political Views Generally.

Paris, October 22.—The Gaulois newspape publishes an interview with Gladstone, who, replying to the question whether in event of a liberal victory at the next election would place himself at the head of affairs, said: Lords Hartington and Granville would suffice for the task. He himself would only resume the office if forced to do so by his fellow countrymen.

The Gaulois further says Gladstone deprecated a contention with Russia about Afghanistan, and said he believed there would not be any. India had absolutely nothing to fear from Russia, which has as much as she can do to hold her conquests in Turkistan. The Austro-German alliance he said was doubtless intended as a check to Russia, but the importance of such an alliance should not be exaggerated. an alliance should not be exaggerated, as Bismarck wou'd abandon it as readily as he

had abandoned parliamentary parties which had served his purpose.

Mr. Gladstone thought France and England had made a mistake in permitting Tarkey to remove her privileges in Egypt, by the depo-sition of the khedive. That it was also a mistake to exclude other European powers

road to India must be maintained by keeping up her maritime supremacy.

Mr. Gladstone said his recent visit to Italy satisfied him that the Italia Irredenta question would not form a source of danger t the peace of ltaly. He believed that the next election in England would return a liberal majority. He pointed out Lord Derhy's course as an important sign of the times. He expressed a flattering opinion of the present position and future prospects of France, and did not believe such episodes as the election of Humbert were of

importance. THE FRENCH AND AMERICAN CONSTITUTIONS The Telegraphe of Paris also reports an interview with Gladstone, who is represented as saying the present French constitution was well framed; that the American constitution was likewise excellent for that country, and that since the civil war the American government had given repeated proofs of wisdom. English thinkers, he said, had watched with sympathetic curiosity, the system of a great pation, under a ty the spectacle of a great purely elective government.
